## HEAVY DUTY LI-ION STACKER 1.6T

 1600 kg
  5500 mm
  24 V Li-Ion

The WSA Series is designed for intensive warehouse operations, distribution centers, and logistics facilities where stacking speed, precision, and uptime are critical. Thanks to proportional lifting control, operators can stack pallets smoothly and safely, even in multi-level racking. Compact size and improved visibility make the WSA Series highly effective in confined areas, while its strong mast options provide reliable residual capacity at high lift levels.

# Features

## Fast and precise stacking

The WSA Series achieves lift heights of up to 4.5 m in just 15 seconds, dramatically improving stacking speed. The proportional lifting system ensures precise pallet placement in multi-level racking.

## User-friendly details

The redesigned cover includes a storage pocket and USB charging outlet, letting operators store documents or recharge devices while working. Ergonomic tiller design and creep speed mode further enhance safe and comfortable operation.

## Compact design with great visibility

With shorter length to face of forks and reduced turning radius (as low as 1446 mm), the WSA stackers are perfect for confined aisles. The WSA161 includes two side cylinders as standard, improving operator visibility during lifting.

## Advanced Li-ion power system

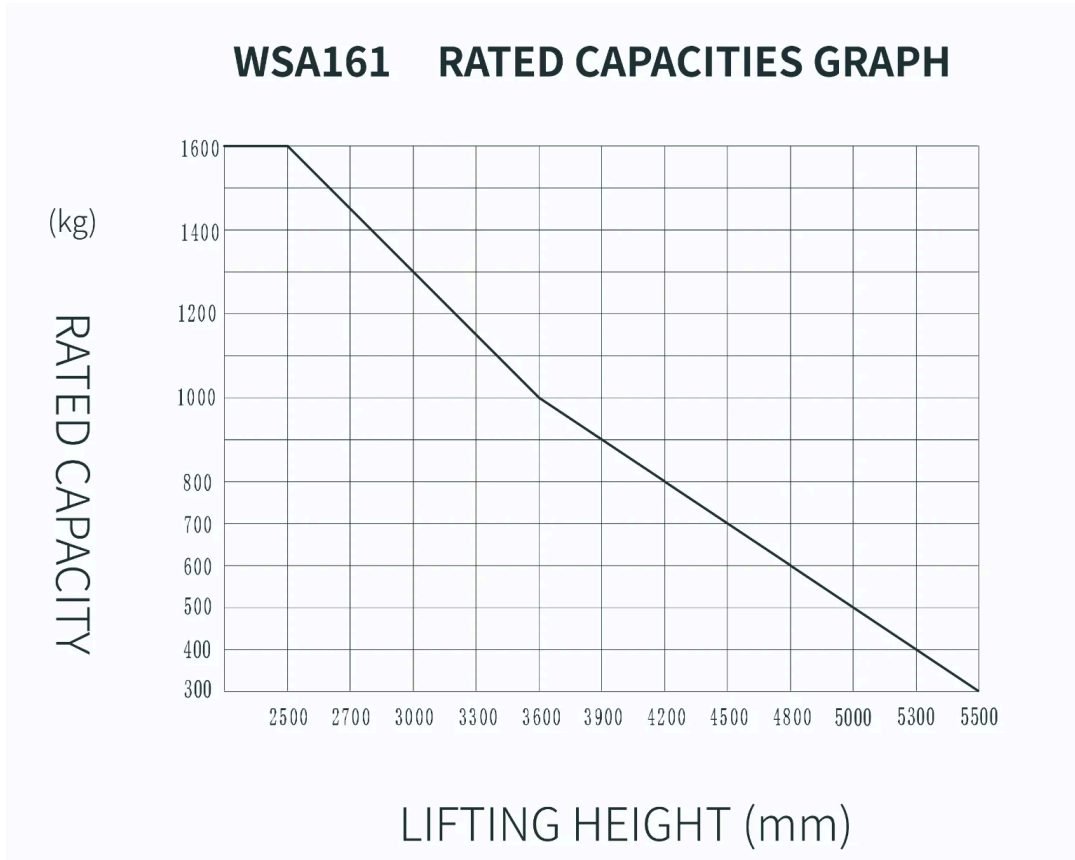

Equipped with a 24V/100Ah Li-ion battery and integrated charger, the WSA Series supports fast, flexible charging and zero maintenance. Optional larger 205Ah Li-ion batteries extend operating time for multi-shift applications.
